SKILLS

- Database Management
- SQL
- Data Analysis & Reporting
- Teamwork
- Information Systems
- Analysis & Design
- System Modeling (UML)
- Web Technologies (Basics)
- Python
- AI Agents & Automation
- (n8n)
- API Integration

LANGUAGES

- Arabic (Fluent)
- English (Upper-Intermediate)
- French (Intermediate))

PROFILE

Bachelor's graduate in Information Systems with a strong background in database management and software fundamentals, skilled in Python and SQL, a passionate Data Analyst and AI agents developer, focused on transforming data into actionable insights and building intelligent, data-driven solutions.

EDUCATION

- High School Diploma (Science Stream)** 2021 - 2022
Technicom High School
- Bachelor's Degree in Information Systems** 2022 - 2025
university of jijel

- Theoretical foundations (mathematics, algorithmics, computer science theory)
- Practical IT and software skills
- Methodological and professional tools
- Business and project management basics within IT
- Programming fundamentals and Object-Oriented Programming

CERTIFICATES

- Intro to AI Agents and Agentic AI**
365 Data Science
 - Learned fundamentals of AI agents and agentic AI systems.
 - Studied different agent types and architectures for autonomous AI .
 - Applied best practices for AI agent implementation and integration.
 - Completed practical exercises on building agentic workflows using automation tools.
- Data Analysis with ChatGPT**
365 Data Science
 - Utilized ChatGPT Advanced Data Analysis tools for exploratory and practical data analysis.
 - Performed data cleaning, preprocessing, and organization with AI assistance.
 - Performed data cleaning, preprocessing, and organization with AI assistance.
 - Applied AI methods to boost productivity in real-world analytics tasks.

- Introduction to MS Excel**
Simplilearn (Microsoft Partner Program)
 - Utilized Microsoft Excel tools for practical data analysis and reporting.
 - Performed data cleaning, preprocessing, and organization using functions and Pivot Tables.
 - Automated tasks and built interactive dashboards using VBA, Macros, and data visualization.

CLUBS AND SOCIETIES

- Member - Esperanza Club** 2023-2026
University of Jijel
 - Active member of a scientific and technical student club, participating in workshops, academic activities, and collaborative projects.
 - Developed teamwork, communication, problem-solving, and knowledge-sharing skills in technology-related topics.
